SUMMARY

Experienced **React Native & Expo** Developer with **3.6 years** driving end-to-end mobile feature delivery, owning release pipelines, and architecting third-party integrations for high-performance cross-platform apps. Skilled in sustaining production stability, mentoring peers, and translating business requirements into scalable technical solutions using **React Native, Expo, TypeScript, React, Next.js**, and **Node.js**.

PROFESSIONAL EXPERIENCE

ITechnolabs Software Pvt Ltd. (Software Engineer) | Mohali, Punjab 🔗 10/2024 – Present

- Directed development of cross-platform mobile features in **React Native** and Expo, owning UI architecture, navigation, and state management decisions.
- Architected integrations of third-party SDKs including **Stripe**, Google Maps, real-time chat, and push notifications.
- Managed app build and release pipeline using **Expo (EAS)** for iOS and Android production deployments.
- Resolved critical production bugs and optimized API integrations, sustaining **99.9% crash-free** performance across releases.

Asterism Advisory (Freelance Next.js Developer) 🔗 05/2023 – 09/2024

- Built and deployed a responsive landing page using **Next.js**, Tailwind CSS, and Vercel.
- Incorporated Resend API with IP-based rate limiting to secure contact forms against spam and bot abuse.
- Configured **Sanity.io** 🔗 **CMS** for headless content management.

Veative Labs Pvt. Ltd. (Software Development Engineer I) | Noida, U.P. 01/2023 – 03/2023

- Guided development of an interactive career-readiness **EdTech** mobile platform helping young learners discover workplace skills.
- Engineered real-time video calling using **GetStream.io** 🔗 **SDK**, enabling 1:1 and group virtual learning sessions.
- Partnered directly with clients to translate business requirements into technical specs, driving UI architecture and API integration decisions.

SheThink Pvt. Ltd. (React Native Developer) | Indore, M.P. 🔗 04/2021 – 10/2022

- Owned engineering and delivery of multiple client-side and in-house **cross-platform** mobile applications end-to-end.
- Managed full app store release process for **2 client apps**, including asset preparation, submission, and deployment governance for Google Play and Apple App Store.

PROJECTS

WedSuite

- Directed development of WedSuite, a comprehensive wedding planning app using **React Native**, Expo, and TypeScript.
- Built an AI Assistant using **Server-Sent Events (SSE)** for real-time streaming, powered by RAG and a Vector DB.
- Configured **RevenueCat** to manage In-App Purchases (IAP) and subscription plans for premium features.
- Delivered interactive modules for budget tracking, guest RSVP management, timeline building, and calendar sync.

Mezzo

- Delivered Mezzo, a real-time e-scooter mobility app built with **React Native** and Expo.
- **Designed** WebSocket connections with Teltonika IoT devices for live scooter telemetry and status tracking.
- Built **Google Maps** integration with live location tracking, route polylines, and automated geofencing.
- Enabled **Stripe**-powered wallet top-ups, pay-as-you-go payments, and push notifications.

POV Social Media App

- **Constructed** Instagram-like Reels & Stories using HLS video streaming and prefetching for zero-latency playback.
- Deployed **FFmpeg** compression for high-efficiency video handling and a background upload service for large media files.
- Incorporated **IMGLY SDK** for editing, WebSockets for real-time chat, and Firebase (FCM) push notifications.

MyDoormat

- Built MyDoormat tenant/landlord apps in **React Native**, supporting 3 distinct user roles (Tenant, Landlord, Admin).
- Enabled real-time chat via **Twilio SDK** between landlords and tenants.
- Configured **Branch.io** [deep linking](#) to automate tenant invitations and streamline onboarding.
- Set up **Stripe**-powered automated monthly rent and lease payments.

JOB POS [↗](#)

- Built a multi-role JOB POS suite (POS, Customer, Driver apps) using **React Native** for in-store staff and delivery operations.
- Deployed **Google Maps** live driver tracking for real-time dispatch and delivery monitoring.
- Set up **Stripe** for secure in-store checkout and customer payments.
- Designed tab-based navigation for seamless multi-role workflows across devices.
